## **Summary**

During the last year I have continually built upon the roll of VP of Sea Cadets. Working closely with the CO and other officers of the Corps I continue to build a strong bridge between the Navy League and the corps. I am continuing to build a template for the VP roll so that I can provide a smooth transition for whomever assumes this roll in the future.

Over the next 12months I look forward to working not only with the Members of the board but also with the Corps and the parents of the corps to try and bring new members to the Navy League board so that we can continue to build a strong local board that will continue on long after all of our tenure.
